Resident Services | Monthly Report

August 2016

Housing On Merit

After-School Program

Rio Vista's After School Program continues to grow with 5 new enrollments in August, bringing the total number of enrollments to 20.

Our Learning Center Assistant, Elsa Garcia, works with students and parents to raise attendance in the program. Ms. Elsa's work with our students has made a visible difference in their reading and writing ability, as well as their understanding of math and science.

Community Engagement

In August, we added two additional resident volunteers to the Learning Center. Volunteers assist in facilitation and increasing participation in programming.
