

MARCH 2018

FORT CHAPLIN PARK APARTMENTS

RESIDENT SERVICES MONTHLY REPORT

Washington D.C. experienced inclement weather throughout much of March, which impacted turnout at our resident services programs at Fort Chaplin. Housing on Merit (HOM) decided to take this slower time to plan resident services programming for upcoming months.

In April, HOM's Center for Academic Excellence will begin offering after-school homework assistance to youth at Fort Chaplin. Additionally, HOM's Center for Growth and Empowerment will continue to partner with the D.C. Public Library to offer beginner-level computer classes to Fort Chaplin's adult residents.

Lastly, HOM is excited to announce that we are gearing up for year two of our youth summer programming with many community partners already confirmed to provide various academic, physical fitness, and social enrichment services.
